**IMPORTANT: READ ALL INSTRUCTIONS CAREFULLY BEFORE BEGINNING MAINTENANCE.**

## RECOMMENDATIONS FOR USE

---

### ▷ **YOUR FLOOR IS A UNIQUE PIECE OF ART**

Treat your floors as the unique piece of nature that they are. The maintenance is minimal for the beauty and value that they bring to your home. Following these simple steps will protect your investment and keep your floors beautiful for years to come.

### ▷ **DUSTING AND SWEEPING**

There is no better way to prolong the look of your hardwood floors than dusting regularly with a disposable dusting cloth or a reusable microfiber pad. Static electricity traps dirt, particles and other household allergens. Avoid brooms that push dirt instead of trapping it. When cleaning your floors, avoid lifting your microfiber in order to keep the dirt trapped on the pad.

### ▷ **VACUUMING AND MOPPING**

When using vacuums on hardwood floors, you need to be extra cautious. Make sure that you use a vacuum without beater bars or use a vacuum in which you can turn off the beater brush feature. These can damage the finish and severely scratch the surface of your floors.

Use of a damp sponge, cloth, traditional or "Swiffer" type mop is recommended. Ensure that no excess moisture is left on the floor. Cleaning solutions such as diluted Bona® Pro Series Hardwood Floor Cleaner (for large areas) or a spray application Bona® Hardwood Floor Cleaner (for small areas) are recommended. After cleaning is complete, allow the floor to completely dry before walking on them. Always refer to cleaning product manufacturer guidelines for application instructions.

Cleaning with an overly wet mop is not recommended, as pooling or excess water may discolor the surface or flow between the planks which could damage the structure of the floor. Steam devices for floors should never be used as they will damage the finish of your hardwood floors.

Avoid old tips such as using vinegar, soap or wax, all of this might cause long term damage to the finish of your beautiful floors.

### ▷ **PREVENTIVE MAINTENANCE.**

Spills happen, when they do, be sure to attend them quickly. Soak up all pooled liquids and wipe clean. You may need to use one of the cleaners recommended above. Particles such as sand, dirt and grit can be very damaging and shorten the lifespan of the floor's finish. The floor's protective coating will quickly dull due to excessive scratches and depending on the severity may even penetrate to the wood itself. Protective mats placed at external entrances can be highly effective at prolonging the appearance and life of the floor. Being cautious with dirty shoes or spiked/damaged heels and ensuring pet claws are trimmed regularly will reduce any scratches and indentations to the wood. We also recommend the use of protective pads for the feet of chairs and furniture. NEVER drag or slide furniture without the necessary protection.

## RECOMMENDATIONS

### **Cleaning and maintenance**

We recommend that you use only RIVA SPAIN approved maintenance products to clean and maintain your Flooring.

### **Radiant Heat Systems**

Certain Flooring is warranted for use with Radiant Heat Systems. If such Flooring is installed over a radiant heating system, the surface temperature of the Flooring must not exceed 82 degrees Fahrenheit. Dramatic temperature changes may damage the Flooring. Flooring must be heated gradually in 5 degree Fahrenheit increments. It is recommended that a dedicated thermostat be installed to allow the temperature of the Radiant Heat System to be accurately controlled.

For warranty coverage to apply, the Flooring must be authorized for use with a radiant heating system and the installation must conform to the manufacturer's Special Instructions for Installations over Radiant Heat Systems, including the placement of approved under-floor heat sensors. RIVA SPAIN will, at its option, either repair and/or replace the Flooring which is defective or credit you for the portion of the purchase price attributable to the Flooring which is defective. You are responsible to pay for shipping and handling for any replacement Flooring, along with any and all other costs related to the defective Flooring (e.g., labor to remove Flooring, labor to install replacement Flooring, additional materials required to install replacement Flooring, removal of any household fixtures or furniture required to repair or replace the Flooring, hotel stays required due to repair or replacement, etc.). Due to the nature of the product, replacement Flooring is not guaranteed to match the original Flooring in terms of color, tone, pattern or other natural characteristics of wood. These remedies are your sole and exclusive remedies under this warranty.
